

GRINN REACH Statement

This statement is GRINN's position regarding **Registration Evaluation, Authorization and Restriction of Chemical substances (REACH)** of the European Community regulation on chemicals (EC 1907/2006).

GRINN produces „Articles” as defined in REACH regulation and not chemicals which need to be registered according to the REACH regulation. There is no intended release of substances subject to REACH and therefore registration does not apply for our products.

The European Chemical Agency (ECHA) Candidate List of the Substances of Very High Concern (SVHC) last update 20 June 2016 (<https://echa.europa.eu/pl/candidate-list-table>) is monitored regularly by GRINN with its approved suppliers.

GRINN does not perform any specific chemical analysis of its products thus please accept our apologies in advance for not filling out any detailed inquiry on this matter.

As an environmentally responsible company, GRINN supports REACH other legislations with aim to improve the protection of our environmental, human health and safety.
